

REDUCE WRONG-VERSION DISPATCH

This sheet is for version-sensitive Chinese auto parts, especially lamps, bumpers, mirrors, steering, cooling, and suspension items.

REQUIRED SIGNALS

- OE number or old-part label
- VIN if available
- Vehicle year and market version
- Left / right / front / rear position
- Old-part front and back photos

HIGH-RISK DIFFERENCES

- Facelift vs pre-facelift
- LHD vs RHD
- Connector and pin count
- Sensor holes and camera trim
- Mounting bracket position

FOR BODY PARTS

- Send front / rear vehicle photo
- Confirm trim grade and color request
- Ask for packing photo before dispatch

FOR COOLING / CHASSIS

- Confirm engine size and year
- Check pipe outlet or bushing shape
- Request label photo before packing
